Smart Energy Municipalities Project in Albania

The Smart Energy Municipalities Project extended support for the introduction of the municipal energy management system (EMS) to additional six municipalities: **Mat, Puka, Lezha, Shijak, Devoll and Gjirokastra**. During July 2024 the representatives of the Swiss Embassy and SEMP team visited six municipalities which confirmed their interest and commitment to local energy and climate action.

SEMP

Period: 2021 – 2024

Outcome of Component 1:

A suitable energy management framework improves energy management at municipal and national level.

Outcome of Component 2:

Citizens of selected municipalities benefit from energy efficient public services provided by effective administrations.
